

**TABLE II – CORRELATING THE 2022 VERSION TO THE 2028 VERSION  
OF THE HARMONIZED SYSTEM**

**April 2026**

**Note:**

Table II correlates the 2022 edition and the 2028 edition of the HS. It lists *HS 2022* subheading references in the left-hand column and the corresponding *HS 2028* entries in the middle column. The prefix “ex”, which appears in the middle column, indicates that only part of the goods covered by the *HS 2028* subheading corresponds to the *HS 2022* subheading in the left-hand column.

The right-hand column provides brief descriptions of the types of goods transferred from the *HS 2022* subheadings in the left-hand column to the corresponding *HS 2028* subheadings in the middle column. It should be noted that the descriptions refer only to the goods classified under the *HS 2022* subheadings which fall within the indicated types or categories of goods.

In the right-hand column, the symbol “o” is used when a single *HS 2022* subheading corresponds to more than one *HS 2028* subheading. This symbol indicates that the goods covered by that *HS 2022* subheading are divided into separate categories, each of which corresponds to a different *HS 2028* subheading. The specific types of goods transferred to each *HS 2028* subheading are explained in the accompanying descriptions. When there are further subdivisions, additional circles are used (for example, “o o”).

These descriptions are intended to help users understand changes resulting from HS amendments and are provided for reference purposes only. They have no legal status.

**Examples:**

<b>2022 Version</b>	<b>2028 Version</b>	<b>Brief description of the types of goods transferred from the <u>2022 Version</u></b>
0307.31	0307.33 0307.34	o Live o Fresh or chilled
0307.32	0307.35	(All goods of subheading 0307.32 ( <i>HS 2022</i> ))

In these examples:

- *HS 2022* subheading 0307.31 covers mussels (*Mytilus spp.*, *Perna spp.*) that are live, fresh or chilled. In *HS 2028*, this subheading is split so that:
  - Subheading 0307.33 covers live mussels
  - Subheading 0307.34 covers fresh or chilled mussels.

It should be noted that, the word “Live” appears in the right-hand column is indicated for *HS 2028* subheading 0307.33, it means that only those goods which were classified under *HS 2022* subheading 0307.31 and which are “live” will be transferred to *HS 2028* subheading 0307.33 — not all live goods in general.

- *HS 2022* subheading 0307.32 covers mussels (*Mytilus spp.*, *Perna spp.*) that are frozen. All goods under this subheading move entirely to *HS 2028* subheading 0307.35. The note “(All goods of subheading 0307.32 (*HS 2022*))” indicates a full transfer. N.B. If the code numbers remain unchanged, it means that all goods covered by that *HS 2022* subheading continue to be classified under the same subheading.
